MEMORANDUM FOR THE ASSISTANT SECRETARY OF THE ARMY (LOGISTICS)  
ASSISTANT SECRETARY OF THE NAVY (MATERIAL)  
ASSISTANT SECRETARY OF THE AIR FORCE (MATERIEL)  
DIRECTOR, CENTRAL INTELLIGENCE AGENCY  
DIRECTOR, NATIONAL ADVISORY COMMITTEE FOR AERONAUTICS  
ADMINISTRATOR, CIVIL AERONAUTICS ADMINISTRATION  
ADMINISTRATOR, BUSINESS & DEFENSE SERVICES ADMINISTRATION

SUBJECT: Emergency Priorities Functions and Alternate Locations

In accordance with provisions of the Emergency Priorities and Allocations Manual (paragraph C of Section 11-1A) dated 12 September 1955, a list of those offices designated to perform emergency priorities and allocations functions under "disaster" conditions is being readied for publication.

Attached as Inclosure 1 is a list of the major functions for which information is needed, together with present staff contacts. Names of current staff contacts will help in intra-departmental, associated agency, and OSD planning for Operation Alert as well as in problem play, although it may prove impractical to publish names in EPAM. Inclosure 2 shows the alternate locations of responsible organizational elements. Both inclosures have been prepared by my staff from information available in OSD as of this date.

You are requested to submit to OASD(S&L) confirmation or correction of the indicated locations and staff contacts, and to furnish similar supplementary data to and including Technical Service, Bureau or Command levels.

Submission to OASD(S&L) of all available information is requested by 6 July 1956, in order that data may be consolidated and a draft readied for use and verification during the July test (Operation Alert 1956) scheduled by ODM for all defense agencies. Additional information, and revisions, should be furnished us as available. The resulting EPAM issuance (a classified Exhibit 1 to Section 11-1) will make the necessary lateral coordination more practical under the assumed conditions.

For the Assistant Secretary (Supply and Logistics):

2 Inclosures

1. Emer Pri Functions
2. Alternate Locations (S)
